Project Experience

Africa School of Technology Registration portal

🔗 astportal.co.za

- User Registration and Sign-Up: Users can create accounts by providing personal information like name, email, and password.
- Application Submission: Registered users can fill out and submit detailed application forms.
- Email Notification on Submission: Users receive an email confirmation upon application submission.
- Admin Dashboard: Admins can view all submitted applications and see essential applicant information.
- Admin Functions: Admins can view detailed applicant data, update application statuses, and send acceptance letters via email.

MyDoc Customer management system

🔗 Repstar.xyz

- Admin Registration:
 - Users register as admins who manage the system.
- Add Patients:
 - Admins can add patient details to the system, creating individual patient profiles.
- Consultation Records:
 - The system captures and stores detailed records of each patient consultation.
- Print Patient Records:
 - Admins can print a record of a patient's previous visits to assist doctors in assessments.
- Patient Management:
 - Comprehensive management of patient information and consultation history for efficient healthcare delivery.
